* **Executive Summary**

Please provide an executive summary of the project idea, its relevance to global health priorities, and alignment with WONCA's mission (Max 500 words).

*** Problem Statement**

Describe the specific problem your project will address (Max 300 words).

*** Project details**

What is the purpose/overall goal of the project?

*** How will the project address the identified problem?**

*** Innovation and Creativity.** How does this project bring fresh perspectives or solutions to global health and primary care?

*** Modularity:** Describe the project's ability to be developed in stages or modules, allowing for gradual implementation and refinement.

* Scalability: Describe the potential to expand the project beyond the initial scope, for example, making it applicable across different regions or contexts.

* Type of project

- Capacity building
- Training activities
- Policy development
- Advocacy
- Research
- Other

Project objectives, impact, and activities

Please provide a list of up to 10 objectives for the project, along with their corresponding expected impact, planned activities, and deliverables.

The objectives (or goals to achieve) for the project must be specific, measurable, achievable, relevant, and timely.

*** Methodology**

Please describe the methodology you plan to use for the project's implementation. Outline the approach, key activities, and strategies that will guide the process to achieve the desired results.

*** Monitoring and evaluation**

Please describe how you plan to measure and assess the project's progress and results. Include any tools, methods, or frameworks you intend to use.

*** Project Duration**

Please indicate the total implementation time for the project.

* Geographical scope of implementation

Please share a list of countries where you envision implementing the project. This will help us understand the geographical focus and context of your proposal.

Resources needed

Please **attach** a preliminary budget outline that includes key areas of project implementation, such as communication and dissemination, staff, project management, operational costs, or other relevant components. This will provide a clear starting point for developing the proposal further.

Partnerships and other key stakeholders

Please share with us if you have identified the key partners (i.e., member organizations, academic institutions, government agencies, etc.) that can contribute to the development of the project.

Additionally, we encourage you to describe how you plan to leverage any additional assets, including “in-kind” contributions, that partners may offer. These contributions, while not requiring direct funding, can significantly enhance the project's scope, value, and feasibility.
